Response to Amendment

1. Applicant's amendment received on August 23rd 2004 in which claim 15 was amended, and claims 16, and 44-51 were canceled, has been fully considered and entered, but the arguments with respect to the claims are not persuasive.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 5-6, 9-14, 18, 21-23, 26-28, 31, 34-35, and 38-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Feder et al. (US Patent no. 6,300,973) for the same reasons as previously set forth in the last office action mailed on February 17 2004, paper no. 7.

Regarding the above claims, the applicant argues that Feder fails to teach or suggest *"adjusting a video encoding rate employed during video encoding based at least in part on an estimation of motion for a selected portion of a video image being encoded"*. The examiner respectfully disagrees for the following reasons. First, in col. 5, lines 22-34, Feder explains the rate adjustment. Further, in col. 7, lines 7-24, Feder discloses that the motion estimation 450, **compares if needed**, the received image with the reference

image that exists in the frame memory. The **"if needed"** clearly shows that sometimes the adjustment is not done with the newly received image, but currently encoded portion of the image. In addition, Feder discloses in col. 9, lines 41-54 that *"due to constraints in processing power a decision or a decision by the quality control module 630 ... refinement may not be necessary. At step 730, the generalized encoder ... will return information about the frame and/or block quality."* Note that in this last quote, Feder again refers to using the information about the frame and/or block quality.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2-4, 7-8, 19-20, 24-25, 29-30, 32-33, 36-37, and 41-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Feder in view of Uz et al. (US Patent no. 5847761) for the same reasons as previously set forth in the last office action mailed on February 17 2004, paper no. 7.

As per claims 2-4, 7-8, 19-20, 24-25, 29-30, 32-33, 36-37, and 41-43, since the applicant did not present any specific argument with respect to the claimed limitations, it is plausible to conclude that the claims were properly rejected.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

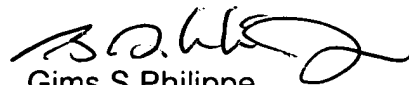

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
